DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-48, 52, drawn to an ink jet recording head, classified in class 347, subclass 93.
- II. Claims 49-51, drawn to an ink jet recording apparatus, classified in class 347, subclass 30.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as cleaning a recording head. See MPEP § 806.05(d).

Please note that although claim 49 refers to claims 26-48, claim 49 is not required to have the inclusion of the limitations recite in claims 26-48 since those limitations are recited as an intended use and are not part of the structure that define the claimed apparatus. Hence, if applicant elected Group II, applicant must rewrite claim 49 in proper independent form. In that it does not refer to the other claims.

Art Unit: 2861

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
